

Name _____

Storm Showdown: Compare & Contrast

Hurricanes, tornadoes, and thunderstorms are all powerful weather events, but they form under different conditions, occur in different places, and have different impacts. In this activity, you will fill in a **comparison chart** to understand their similarities and differences. Some answers may require research or recalling class lessons.

Feature	Hurricane	Tornado	Thunderstorm
Formation Location			
Typical Size			
Wind Speed Range			
Main Hazards			
Duration			
Season/Time of Year
