

Name _____

Weathering & Erosion Knowledge Check Answer Key

1. **C** - Weathering is breaking down rocks without moving them.
2. **D** - Rusting is a chemical change to minerals.
3. **B** - Weathering breaks down materials; erosion moves them.
4. **B** - Glaciers carve U-shaped valleys.
5. **C** - Deposition happens when sediment is dropped.
6. **C** - Removing vegetation increases erosion risk.
7. **B** - Sand abrasion is physical weathering.
8. **A** - Deposition creates deltas.
9. **D** - Gravity moves materials downhill.
10. **A** - Freeze-thaw is weathering, not erosion.
