

Name _____

Landform Match-Up

Instructions: Below is a list of **landforms** and a list of **erosion agents**. Your task is to match each landform to the **main agent of erosion** that most likely formed it. Write the correct letter (**A-F**) next to each number.

1. Grand Canyon
2. River Delta
3. Sea Arch
4. Sand Dune
5. U-Shaped Valley
6. Cliff Face

- A. Wind carrying and depositing sand
- B. Ocean waves pounding against rock
- C. River water carving and carrying sediment
- D. Glaciers grinding rock as they move
- E. Streams dropping sediment at their mouths
- F. Gravity causing rockfalls

Bonus Challenge

Choose **two landforms** from the list and explain in **one sentence each** how the erosion process works to create them.

1.

2.
