### Teacher's Guide

- **Skill Focus:** Strengthens understanding of *who* as a **subject pronoun** and *whom* as an **object pronoun** through a gradual difficulty increase from simple interrogatives to complex embedded clauses.
- **Differentiation Tips:**
  - For struggling learners, guide them to substitute *he/she* for *who* and *him/her* for *whom* to test correctness.
  - For advanced learners, challenge them to create their own final "Level 11" sentence using both pronouns correctly.
- **Engagement Idea:** Present it as a "grammar climb." Each correct answer allows students to move up a step on the classroom board or poster.
- **Extension Activity:** Have students rewrite one or two sentences into short dialogues, highlighting the difference in tone and structure when *who* or *whom* is used.
