Name _____

Things We Can Trust AI to Do Well Answer Key

1. B - It can process large amounts of data very quickly.
(AI is great at handling massive amounts of information, such as medical scans.)

2. D - It doesn't need breaks or motivation.
(AI doesn't get tired or bored, making it reliable for repetitive tasks.)

3. C - It uses live data to predict traffic and suggest routes.
(AI in GPS and autopilot systems helps manage travel safely and efficiently.)
