

Name _____

Prompt or Prejudice?

AI only sounds as smart as the questions we ask it. A vague, unfair, or biased prompt can lead to answers that are just as misleading. Learning to write clear, balanced prompts helps AI give better, more trustworthy responses - and helps *us* think more critically about language and assumptions. In this activity, you'll read a few questionable AI prompts. Your job is to rewrite each one so it's more neutral, specific, and fair. Think like an editor, not just a student: how can you help the AI respond honestly and accurately, instead of emotionally or unfairly?

1. The Robot Showdown – Original prompt: *"Write a report about why all robots are better than humans."* Rewrite it to make it balanced, fair, and focused on evidence:

Your improved prompt:

Why is it better:

2. The School Debate - Original prompt: *"Explain why students who use AI to write essays are lazy."* Rewrite it so it avoids judgment and encourages analysis:

Your improved prompt:

Why is it better:

3. The History Hiccup - Original prompt: *"Describe how technology has completely ruined human society."* Rewrite it so it allows for multiple viewpoints:

Your improved prompt:

Why is it better:

4. The Future Fear - Original prompt: *"Convince me that AI will destroy all jobs in the next 10 years."* Rewrite it so the question explores possibilities, not panic:

Your improved prompt:

Why is it better:

5. The Art Argument- Original prompt: *"Prove that human artists are more creative than AI."* Rewrite it so it invites comparison instead of competition:

Your improved prompt:

Why is it better:
