

Name _____

Double View Answer Key

Answers will vary. Strong student responses should include:

- Clear and **observable** similarities such as color, shape, size, or posture.
- Clear and **observable** differences such as texture, materials, or movement.
- At least one precise verb and one vivid adjective.
- A well-structured paragraph with correct punctuation.

Teacher's Guide

Purpose: To help students build descriptive comparison skills by grounding all observations in concrete, visible details.

Teaching Tips:

- Emphasize that students should avoid assumptions about purpose or personality.
- Encourage the use of **precise verbs** and **vivid adjectives** to sharpen the comparison.

Differentiation:

- Provide guiding questions such as: What shapes do you see? What textures stand out? How do the backgrounds differ?
- Challenge advanced students to add a sentence explaining how the most important difference affects the viewer's impression.

Engagement Ideas:

- Use everyday classroom objects for quick warm-ups.
- Have partners compare their answers to see how differently they interpreted the same visuals.
