Teacher's Guide

- Review with students that **feelings** can be shown through actions, words, and expressions in a passage.
- Guide students to underline clues like happy, enjoys, and hums to support their answers.
- For support, read the passage aloud and pause to ask how Ellie might be feeling in each moment.
- For engagement, let students act out Ellie's calm humming or her helpful action.
- For differentiation, reduce the number of statements or provide sentence frames like Ellie feels __ because __.
- For extension, ask students to write one new Yes or No feeling statement and challenge a partner to answer.
