Teacher's Guide

- Remind students that a **mini quiz** checks understanding quickly and carefully.
- Read the passage aloud once before students answer the questions.
- For support, reread each quiz question and ask students to find the matching sentence in the text.
- For engagement, have students whisper read the passage with a partner before the quiz.
- For differentiation, allow some students to answer only three of the five questions.
- For extension, have students write one new Yes or No question about Mila and the fireflies to share with the class.
