### Teacher's Guide

- Start by reviewing each **-ft** word aloud, emphasizing the final blend so students clearly hear the ending sound.
- Provide picture cues for emerging readers who need support with vocabulary. Have them match pictures to words before completing the lines.
- Encourage students who need extension to create their own kid-friendly definitions for two additional **-ft** words and swap with a partner to solve.
- Add movement by placing word cards around the room. Students walk to the one they think matches the definition and write it down.
