

Name _____

Rhyme Lift-Off Answer Key

Rhyming pairs:

- gift / lift
- soft / loft
- draft / craft
- raft / shaft

Teacher's Guide

- Begin by saying each word aloud and having students **echo** it to hear the ending sounds clearly.
- Provide colored pencils so students can easily group rhyming pairs. For students who need support, model how to identify rhymes by stretching the ending sounds.
- As an extension, have students **create a simple drawing** for one rhyming pair and write both words underneath.
- To build engagement, read the list aloud in random order and let students call out when they hear a rhyme.
