Teacher's Guide

- Begin by reviewing the **-ft** blend and modeling how it sounds at the end of a word.
- Provide struggling readers with picture cards that match each word choice so they can visually connect meaning to words.
- Encourage students to read each sentence aloud. Hearing the sentence often helps them determine the correct context-based choice.
- For early finishers, have them write a new sentence using any two **-ft** words from the list to build fluency and vocabulary.
