Teacher's Guide

- Support emerging readers by having them **read the word bank aloud first** and clap the ending blend in each word.
- For students who need more help, provide picture cues that match each **-ft** word. Let them match pictures to sentences before writing.
- To extend the learning, ask students to **write their own sentence** using a new **-ft** word not in the word bank.
- Increase engagement by turning it into a partner activity. One student reads the sentence aloud while the other chooses the correct word, then they switch roles.
