### Teacher's Guide

- Use this activity as a quick warm-up for K-1 students who are learning to recognize and complete **final consonant blends**.
- Encourage students to tap out the sounds as they add **It**, helping them notice how the blend appears at the end of the word.
- Provide letter tiles or magnetic letters for hands-on learners who benefit from physically building the words before writing them.
- For extension, ask students to draw a simple picture of one completed word or use two of the finished words in short oral sentences.
