### Teacher's Guide

- Use this activity to help grades 1-2 focus on vowel sounds while reinforcing the **lt** final blend.
- Model sounding out the consonants first, then inserting different vowel sounds until the word becomes a real, familiar word.
- Provide a vowel strip (a, e, i, o, u) for students who need visual reminders, or let them use letter tiles to test vowel options.
- For extension, ask students to choose one completed word and write a short sentence using it or brainstorm additional **lt** words that were not used in the exercise.
