### Teacher's Guide

- This worksheet supports grades 1-2 as they apply **final consonant blend recognition** within meaningful sentence contexts.
- Pre-read the word box with students and discuss any unfamiliar vocabulary before they begin the activity.
- Provide a scaffold by covering the word endings and asking students to listen for the ending sound before choosing the correct **lt** word.
- For extension, have students create their own short sentence using one of the completed **lt** words or illustrate one of the sentences to reinforce vocabulary understanding.
