Teacher's Guide

- This matching activity helps students in grades 1-2 connect **final consonant blend** decoding with vocabulary understanding.
- Read the words together as a class first, encouraging students to emphasize the **lt** ending.
- For students who need more support, allow them to cover the endings and slowly reveal letters as they decode.
- For extension, ask students to choose one matched pair and write their own kid-friendly definition or draw a picture that represents the word they selected.
