### Teacher's Guide

- Use this worksheet to help students connect **final -mp blends** with meaningful sentence creation.
- Model a sample sentence first to show how to include the target word naturally and use correct capitalization and punctuation.
- For differentiation, provide word banks or sentence starters such as "I can \_\_\_\_" or "The \_\_\_\_ is on the desk."
- Extend the task by encouraging students to illustrate their favorite sentence or to write a two-sentence mini story using two different -mp words.
