Teacher's Guide

- This worksheet supports early readers as they connect **-mp final blend words** to simple visual meaning.
- Read the word list aloud with students first, encouraging them to identify the ending blend by tapping out the sounds.
- For differentiation, provide sentence frames such as "I see a ____" and let students match word to picture verbally before coloring.
- For extension, have students draw a new -mp picture on the back and write its matching -mp word, or use the completed sheet as a mini word wall for additional literacy center practice.
