6. send
7. hand
8. bend
9. Not an -nd word
10. wind

Teacher's Guide

- This mini-strip serves as a fast **exit-ticket assessment** for identifying **-nd final blends** through multiple task types.
- Encourage students to read each option aloud to hear the ending blend, especially for spelling checks.
- For differentiation, model one example of each task type before independent work or allow students to use a small **real vs. nonsense** word chart.
- For extension, invite students to create one new quick-check item of their own for a classmate, using an **-nd** word in a different format (circle, fill in, fix, sort).
