Teacher's Guide

- Review the **-st** final blend and read the word bank aloud together before beginning the activity.
- Encourage students to read each sentence carefully and think about which word makes the most sense in context.
- Support emerging readers by modeling how to reread the full sentence after inserting a word to check for meaning.
- For extension, have students write their own short sentence using one or more **-st** words or create a mini word bank of new **-st** words they know.
